Solarstone specializes in manufacturing building-integrated solar panels (BIPV) that replace traditional roofing materials, providing both aesthetic appeal and modern energy production.

Well, this creates a unique challenge for solar energy adoption. Yet Tallinn photovoltaic energy storage companies are flipping the script, transforming limitations into opportunities through ...

Tallinn, with its mix of medieval charm and tech-savvy energy policies, is quietly becoming a hotspot for solar storage innovation. Let's crack open this Baltic treasure chest ...

Solarstone is reinforcing Estonia's commitment to sustainable energy solutions by opening Europe's largest solar roof factory to produce 14 ...

Solarstone is proud to announce a landmark achievement, establishing itself as Europe's premier BIPV production facility with an annual output reaching 60 MW.

We are one of the few companies in Estonia that can build solar parks with its team without using subcontracting, starting from solar panels to the construction of the connection point/substation.

We built a solar power plant on the roof of Estonia Dairy Farm in Jarva County, where we installed 644 solar panels. Over the years, we have vigorously expanded our solar energy production.

If you can adjust the tilt angle of your solar PV panels, please refer to the seasonal tilt angles below for optimal solar energy production in Tallinn, Estonia.

Solarstone is reinforcing Estonia's commitment to sustainable energy solutions by opening Europe's largest solar roof factory to produce 14 times as many building-integrated solar roofs ...
