Where can I find information about a hydrogen fueling station?

Existing and planned hydrogen fueling stations in the U.S. are available to view on a map or download as a spreadsheet from the Alternative Fuels Data Center. The site includes information regarding location, accessibility, hours of operation, and payment method.

How many hydrogen fuel stations are there in the US?

Use our free hydrogen fuel station locator to check real-time availability and see the limited network for yourself. Only 52 hydrogen stations remain in the US. Get current information about station availability, reliability challenges, Shell's exit, and the reality for hydrogen vehicle owners.

How do I find a number of hydrogen stations?

Roll over a state on the map for count of hydrogen stations. To map hydrogen stations near a specific address or city, use the Alternative Fueling Station Locator. For station counts and historical information, see Station Counts by State. Find maps and charts showing transportation data and trends related to alternative fuels and vehicles.

How many hydrogen fueling stations are there in 2024?

As of 2024, there are just 74 hydrogen fueling stations across the entire country. Despite decades of hype around hydrogen vehicles, America's fueling network remains sparse, with just 74 stations nationwide in 2024.

As the world transitions towards a sustainable future, the growth of hydrogen hubs in the United States holds immense promise. These top ten US hydrogen hubs are leading the ...

As the world transitions towards a sustainable future, the growth of hydrogen hubs in the United States holds immense promise. ...

Find maps and charts showing transportation data and trends related to alternative fuels and vehicles. A handful of fueling stations in the United States provide hydrogen as a vehicle fuel.

Users can browse this mapping tool based on the status of the project (online, construction, planning), indicated by shape, and types of hydrogen (grey, blue, green, turquoise, and pink), ...

This collection of U.S. hydrogen maps provides examples of how geographic information system modeling is used in hydrogen infrastructure, demand, ...

This collection of U.S. hydrogen maps provides examples of how geographic information system modeling is used in hydrogen infrastructure, demand, market, and resource analysis.

Explore the current landscape of hydrogen fueling stations in the U.S., covering infrastructure growth, challenges, and future opportunities.

While hydrogen vehicles have been touted as the future of transportation for decades, the reality of fueling them in the United States remains stubbornly limited.

Existing and planned hydrogen fueling stations in the U.S. are available to view on a map or download as a spreadsheet from the Alternative Fuels Data Center. The site includes ...

Use our free hydrogen fuel station locator to check real-time availability and see the limited network for yourself. Only 52 hydrogen stations remain in the US.

Discover the growing network of hydrogen refuelling stations across the US and Canada, a key element in the transition to cleaner energy and sustainable transportation.

HyBuild Los Angeles A nonprofit called the Green Hydrogen Coalition is pushing what it claims would be "the first scaled ecosystem for green hydrogen in North America."
