What are glass-glass solar panels?

Glass-glass solar glass systems, also known as glass-glass solar panels, offer plenty of options for design and construction. Vitro Architectural Glass specializes in developing optimal solutions for these projects.

What is Solarvolt™ glass?

Solarvolt (TM) glass is a system by Vitro Architectural Glass that is ideal for performing the functions of classic glass facades, vision glazing and spandrel glass. It replaces conventional building panels and functions as external weather protection for the facade.

What is Solarvolt (TM) glass?

Glass-glass Solarvolt (TM) glass systems utilizing tempered glass with inter-window strips can be structurally integrated into building envelopes and roof surfaces adjacent to heated rooms. For transparent or vision glazing, solar cells can be arranged to create stripes or squares to achieve high visible light transmittance.

Can solarvolt™ BIPV glass be used in a building?

Solarvolt (TM) BIPV glass systems by Vitro Architectural Glass can be integrated into most standard glass building systems, making them particularly suitable for facade and other exterior applications. Every building has unique requirements, and Solarvolt BIPV glass systems can fulfill any building facade need.

This ground-breaking technology captures solar energy by coating a layer of translucent solar cells onto the surface of the glass, allowing it to turn sunshine into energy ...

Our CLEAR Solar Photovoltaic Window Glass can be combined in layers with our other high tech glass technologies for the ultimate in customization! Call or email us NOW and be among the ...

Due to its clarity, consistency and solar control performance, Solarban(R) 70 glass has become the most commonly specified triple-silver-coated glass ...

Our CLEAR Solar Photovoltaic Window Glass can be combined in layers with our other high tech glass

technologies for the ultimate in customization! ...

Transmits either 64% less (double) or 68% less (triple) solar energy to help keep homes cooler in the summer and reduce cooling energy costs.

Explore verified Tripoli Solar Glass Manufacturer import/export trade queries and posts from global buyers and suppliers. Join go4WorldBusiness to connect, respond, and ...

High Performance.Solarban(R) 72 Starphire(R) GlassSolarban(R) 72 Acuity(R) GlassSolarban(R)72 glass provides high visible light transmittance (VLT), exceptional clarity and superior solar control performance. The exceptionally clear aesthetic makes it the ideal choice for both interior and exterior applications, such as vision and spandrel glass.See more on vitroglazings .b_imgcap_alttitle p strong,.b_imgcap_alttitle .b_factrow strong{color:#767676}#b_results
