Engineered for tropical and equatorial conditions, the proposed technology aims to optimize for grid stability, off-peak power delivery, and operational resilience in demanding ...

The project, led by EA Astrovolt, the East African arm of U.S.-based Energy America, is part of a wider national goal to integrate more than one gigawatt of solar-plus ...

Located in Kapeeka, in the central Ugandan district of Nakaseke, the project will be developed by Energy America's regional development subsidiary, EA Astrovolt. It will be ...

The project, authorised by the government via the issuance of a Gazetted Policy Direction, will be located in Kapeeka Sub-County, Nakaseke District. The approval marks the ...

By partnering with Energy America and EA Astrovolt, Uganda will harness world-class clean energy technology, foster local employment and skills development, and accelerate our ...

The project expands bilateral economic and energy cooperation between the US and Uganda, building on initiatives such as ...

Uganda has approved a major 100 MW solar project paired with a 250 MWh battery storage system--a landmark initiative for solar ...

Located in Kapeeka, in the central Ugandan district of Nakaseke, the project will be developed by Energy America's regional ...

Planned infrastructure includes high-efficiency solar modules optimized for tropical conditions, scalable
