Supports the retention, growth, and expansion of clean energy companies in New York State through strategic industry engagement, educational and financial resources, and partnerships.

With a focus on meeting the needs of the electric grid, we identify, prospect, develop and deploy battery energy storage applications, and use in-house software to optimize the batteries in ...

When built, the facility will be able to hold up to 100 megawatts (MW) and power over tens of thousands of households. Once completed, the project will be amongst the largest ...

Containerized energy storage solutions now account for approximately 45% of all new commercial and industrial storage deployments worldwide. North America leads with 42% market share, ...

Romanian transmission system operator Transelectrica has announced a tender for a battery energy storage project with a 35MW power output and 70 MWh storage capacity. [pdf]

With a focus on meeting the needs of the electric grid, we identify, prospect, develop and deploy battery energy storage applications, and use in ...

The objective of the project HA-G1048 is to maximize the use of the energy produced by the 8-MWp solar photovoltaic plant (SPP) to further reduce the use of thermal power, by ...

Specializing in turnkey energy storage solutions, EK SOLAR has deployed 37MWh of capacity across Malta since 2018. Our marine-grade battery systems withstand harsh coastal ...

Imagine a mega-scale battery that could power an entire city during blackouts or store excess solar energy for rainy days. That"s exactly what the Valletta 8.3 billion energy storage power ...
