What makes a good solar panel performance warranty?

An ideal solar panel performance warranty should include the following conditions: Certain solar manufacturers may even guarantee a degradation rate as low as 0.25% per year, coupled with a performance warranty period of up to 30 years.

What does a solar panel installer's warranty cover?

Separate from the warranties provided by solar panel manufacturers, installer's warranties cover the workmanship of the installation itself. In essence, it's a guarantee by the company putting in your solar panels that they will fix any problems caused by faulty installation for a set period.

Why do solar panels have warranties?

Warranties serve as a testament to the quality of a product. Companies typically offer superior warranties for products of higher quality. While solar panel failures are exceedingly rare due to their design to endure for decades and withstand harsh weather conditions, occasional errors may still occur.
