We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.

Called Quantum 3, the BESS system is housed in an ISO container, making it easier to ship globally, and is ready for deployment ...

Available for simple on-deck installation for a wide variety of ship types, such as OSVs, container vessels, and ferries. The system integrates smoothly ...

Called Quantum 3, the BESS system is housed in an ISO container, making it easier to ship globally, and is ready for deployment as soon as it arrives on site. With solar and ...

The standard applies to container ships, cruise ships, RoRo cargo ships, LNG carriers and tankers. It can easily be applied also to other vessel types, including those that require a low ...

In short, you can indeed run power to a container - either by extending a line from the grid or by turning the container itself into a mini power station using solar panels.

The standard applies to container ships, cruise ships, RoRo cargo ships, LNG carriers and tankers. It can easily be applied also to other vessel ...

Powtech's Containerized Solar PV Solution utilizes innovative hybrid technology housed within a standard 20-ft marine container, delivering up to 10,000 kWh of energy annually.
