Where is Wellington South Battery energy storage system being developed?

Wellington South Battery Energy Storage System is being developed in NSW,Australia. (Credit: Sungrow EMEA on Unsplash) The Wellington Battery Energy Storage System (BESS) is planned to be developed in the central west New South Wales (NSW),Australia. The project will comprise a grid-scale BESS with a total discharge capacity of around 400MW.

What is the Wellington Battery energy storage system (BESS)?

The Wellington Battery Energy Storage System (BESS) is planned to be developed in the central west New South Wales (NSW),Australia. The project will comprise a grid-scale BESS with a total discharge capacity of around 400MW. AMPYR Australia,a renewable energy assets developer in the country,owns 100% of the BESS project.

Will Wellington Bess be the largest battery storage project in NSW?

Once operational,it will have a capacity of 1,000-megawatt hours (MWh) of green power. This will make Wellington BESS one of the largest battery storage projects in NSW. Wellington is being constructed at 6773 and 6909 Goolma Road,Wuuluman NSW 2820.

What is the Wellington Bess project?

"The Wellington BESS will contribute towards supporting Australia's journey towards a more sustainable and reliable energy future," said RJE Global in a statement. The project sits within the Dubbo Regional Council LGA and is part of broader efforts to boost storage infrastructure as renewable penetration increases across the NEM.

UK company Lightsource bp, an equal joint venture between Lightsource and oil giant bp, today announced early construction work has already began on its Wellington North solar farm and ...

When you're looking for the latest and most efficient Wellington energy storage station for your PV project, our website offers a comprehensive selection of cutting-edge products designed to ...
