Through an agreement with the New York City Department of Transportation (DOT) called a revocable consent (RC), property owners and tenants can now install battery swapping and ...

This rule will encourage the safe use of electric micromobility devices in order to address this urgent fire threat. Without this rule, store owners, building owners, and battery swapping and ...

NYC officials hope to minimize the number of fires caused by unsafe e-battery charging practices. Follow this step by step guide to apply for your own charging cabinet.

A battery swapping cabinet allows users to rent a charged, UL-certified battery. When the battery is depleted, the user can exchange it for a fully charged one at the cabinet.

The effort follows a successful pilot program that cut indoor battery charging by 35% and comes amid a spike in battery-related fires. ...

The effort follows a successful pilot program that cut indoor battery charging by 35% and comes amid a spike in battery-related fires. All sidewalk installations will require a ...

The measure is designed to reduce apartment fires by moving more battery charging and storage to safe, Fire Department New York (FDNY) approved cabinets on sidewalks.

Charging cabinets allow users to safely plug in and charge their own UL-certified batteries. Swapping cabinets, on the other hand, are operated by third-party providers that ...
