-----

EcoDirect offers battery boxes, racks and enclosures for off-grid energy storage applications in solar PV systems. These products support the most common battery types.

Maximize power reliability & savings with our 125KW/261KWH Liquid-Cooled Battery Cabinet. Featuring superior cooling efficiency for extended 10-year lifespan, it enables critical ...

Vericom energy storage cabinet adopts All-in-one design, integrated container, refrigeration system, battery module, PCS, fire protection, ...

Its liquid cooling technology guarantees optimal performance even in confined spaces, making it ideal for both large industrial facilities and ...

The Battery Cabinet is an all-in-one energy storage solution featuring LFP (lithium iron phosphate) batteries, liquid-cooling technology, fire ...

The Battery Cabinet is an all-in-one energy storage solution featuring LFP (lithium iron phosphate) batteries, liquid-cooling technology, fire suppression, and monitoring systems for safe and ...

With the support of long-life cell technology and liquid-cooling cell-to-pack (CTP) technology, CATL rolled out LFP-based EnerOne in 2020, which ...

Individual pricing for large scale projects and wholesale demands is available. This system adopts the outdoor container BESS system, which contains high quality LFP battery cells, intelligent ...

container BESS system, which ...

Its liquid cooling technology guarantees optimal performance even in confined spaces, making it ideal for both large industrial facilities and smaller public utility deployments.

With the support of long-life cell technology and liquid-cooling cell-to-pack (CTP) technology, CATL rolled out LFP-based EnerOne in 2020, which features long service life, high integration, ...

Discover GSL Energy's advanced liquid cooling energy storage systems for commercial and industrial applications. Scalable to 5MWh, certified by UL, CE, CEI and IEC.
