-----  
Which cell tower has the most 5G sites?

You'll quickly notice that T-Mobile has the most 5G sites, as they have the largest 5G footprint in the United States. AT&T 5G cell tower and Verizon 5G cell tower info is very thin across all tools. Even though a 5G cell tower is not labeled on the map, doesn't mean there isn't one nearby.

Are 4G and 5G cell tower locations public?

Cellular providers are not required to publicly disclose their 4G and 5G cell tower locations. Most carriers prefer to keep that information private due to safety and security reasons. Most cell tower data is acquired via the FCC database and crowdsourcing. The FCC only requires carriers to register cell towers over 200 feet.

Does AT&T have a 5G cell tower?

AT&T 5G cell tower and Verizon 5G cell tower info is very thin across all tools. Even though a 5G cell tower is not labeled on the map, doesn't mean there isn't one nearby. You can use your phone to find its general direction. First, make sure you're in a 5G area.

How do I find 5G towers near me?

The most straightforward and reliable way to locate 5G towers near you we've found is with our Cell Tower Finder tool. With just your address, you can discover nearby cell towers supporting 5G. You'll quickly notice that T-Mobile has the most 5G sites, as they have the largest 5G footprint in the United States.
