What is a containerboard used for?

Our containerboards are used in virtually all packaging segments and applications for brand owners on a global scale, especially in demanding fresh-food packaging applications. In addition to our products, we provide our customers with value-adding services that help get the most out of the packaging.

What makes our containerboard products so special?

Tested in the lab and on our very own corrugators, our containerboard products meet and exceed all requirements for burst and tensile strength, tear resistance, folding endurance and high printability. And our high-performing products go hand in hand with outstanding services - on-site technical support, design and testing and customer service.

What certifications do Portuguese sellers need?

Portuguese sellers are required to be certified up to European and global standards. Our mission is to make it easy to do business with Portugal. We do this by helping business buyers find products and services from Portuguese suppliers, quickly and efficiently.

What is buyinportugal?

The verification & inspection of sellers on BuyinPortugal.pt serves to safeguard buyers by ensuring sellers are legally registered companies. All legal business licenses and contact persons are verified. The B2B e-Marketplace of Portuguese exporters, and business buyers all over the world! Our mission is to make it easy to do business with Portugal.
