Hydroelectric power (HEP) accounted for the bulk of this, namely utility Namibia Power Corporation (Nampower)'s 374MW ...

This on-grid roof-mounted system is both economical and reliable, taking advantage of the local power source when available and supplementing it with solar energy, but also providing a ...

When Sun Meets Storage Science Windhoek's secret weapon lies in lithium-ion batteries paired with redox flow systems. The new Auas Hybrid Plant combines 54MW solar with 72MWh ...

The construction activity at Momentum Metropolitan Namibia's landmark headquarters in Windhoek was not to add more storeys to the top of the building, as some has ...

The construction activity at Momentum Metropolitan Namibia's landmark headquarters in Windhoek was not to add more ...

The City of Windhoek announced last week that it will receive a grant of 212 750 euros (approximately N\$4.35 million) from Engagement Global gGmbH to establish the ...

Hydroelectric power (HEP) accounted for the bulk of this, namely utility Namibia Power Corporation (Nampower)'s 374MW Ruacana plant. Windhoek aims to add 428MW of ...

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal ...

Namibia's abundant solar and wind resources make it an ideal location for renewable energy production.
